UTD-55F Thermodynamic Steam Trap with Inbuilt Strainer

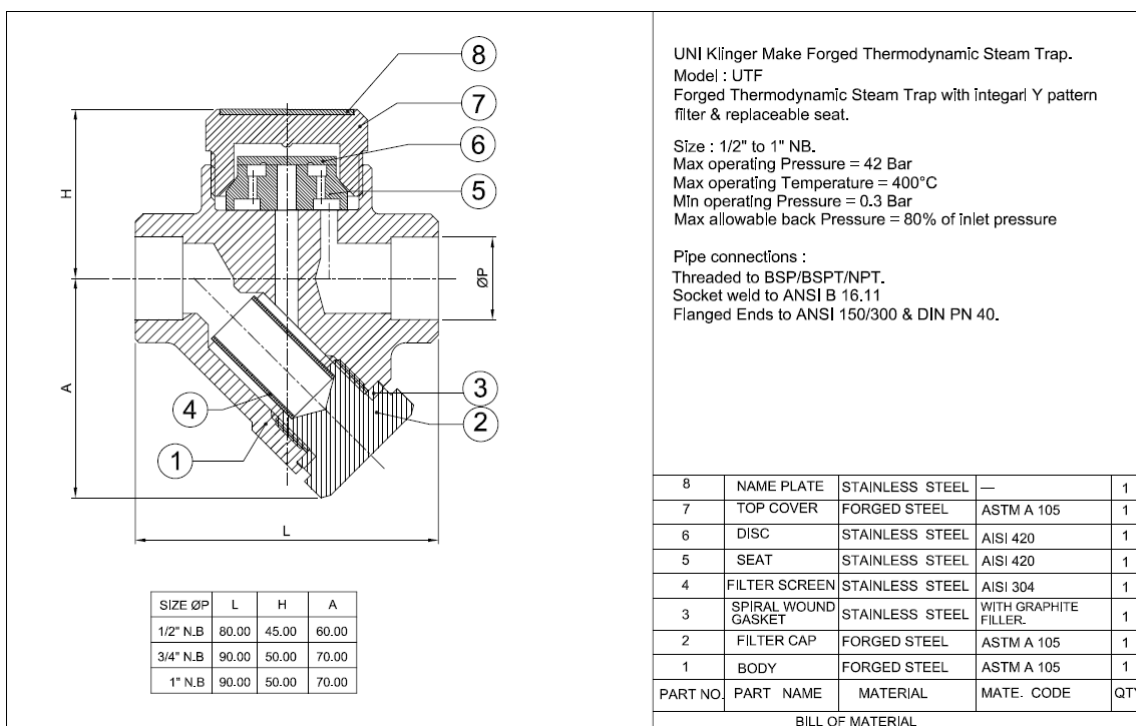

Description :

UTD 55F is a Thermodynamic Steam Trap, manufactured in Forged body construction. It is used for effective trapping of steam and discharging condensate.

The design ensures that the Disc sits flatly on the seat consistently giving perfect steam trapping with reduced wear and tear leading to longer trap life.

Installation :

Preferably in horizontal position.

Optional :

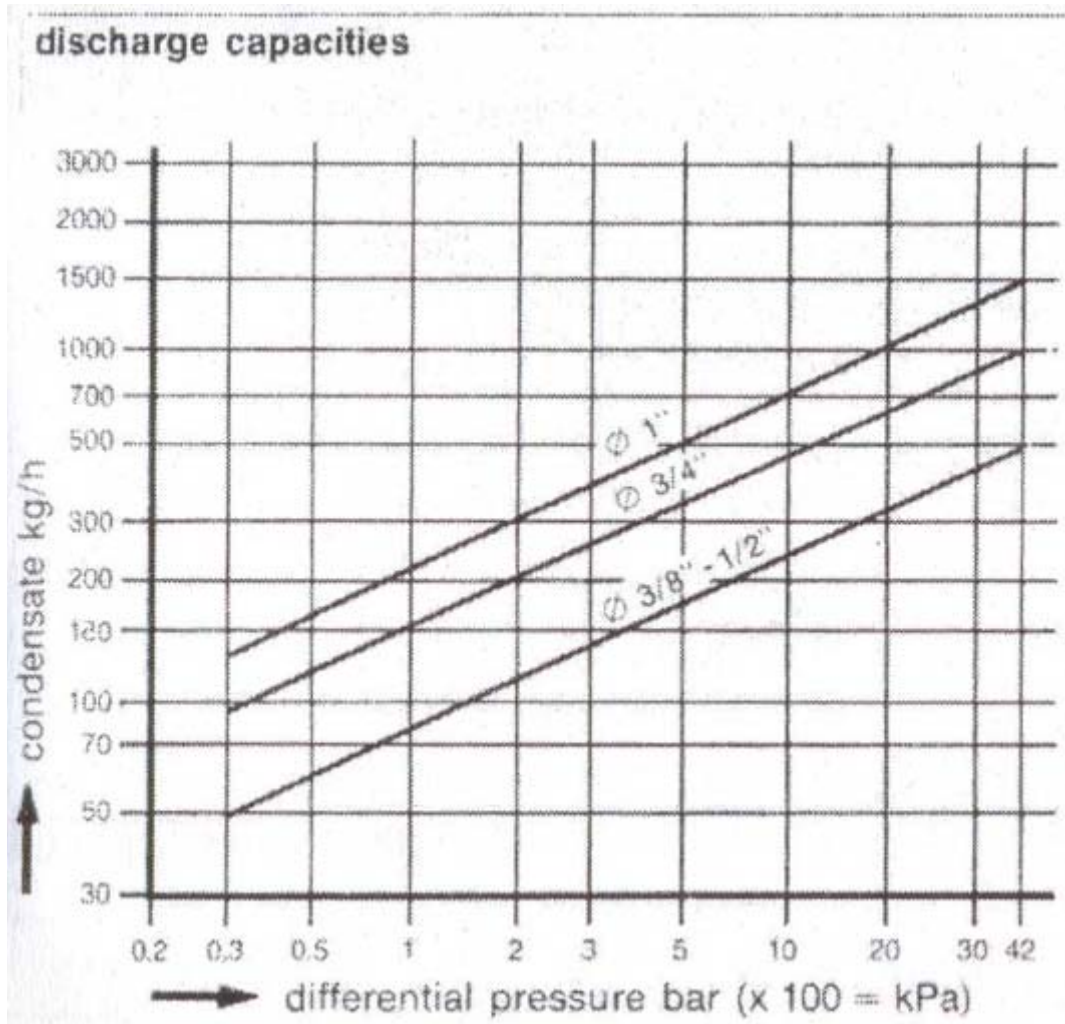

IBR/Non-IBR

With Isotub

Filter cap with Blowdown cock

Welded Flanges for flanged ends.

Trap Capacity Curve :

Please refer our Technical Information Sheet for UTD 55 for other details related to O & M of these traps.

Also available : Cast/Forged Piston Valves, Bellow Seal Valves, T type Strainers, All kinds of Steam Traps, ITVS and Steam/Condensate Manifolds, Pressure Reducing Stations, Condeanste Recovery Products, Liquid Level Gauges and other steam related services.

A Joint Venture Company of Klinger AG., Switzerland and Neterwala Group of Companies, India.
